

## INFOSYS NEXT-GEN DEVOPS SERVICES

DevOps benefits like improved time-to-market and quality, reduced efforts and costs need no proof.

Organizations at various stages of DevOps journeys have achieved these benefits multiple times for its new age distributed technologies. After proving its success across thousands of DevOps engagements, Infosys also focusses on bringing these benefits to the technology landscape beyond distributed technologies.

### DevOps Beyond Distributed Technologies

#### DevOps for Legacy

Bring Mainframe delivery speed at par with digital applications to achieve enterprise agility

#### DevSecOps

Continuous security alongwith DevOps to ensure security is not compromised with faster releases

#### DevOps for Packages

Higher speed for releases for packages with practices based DevOps approach

#### Cloud DevOps

Bring in DevOps practices to best leverage cloud capabilities
