DATA PRIVACY PROTECTION MANAGEMENT

Did you know?

1. It takes 220 days on an average to identify a data breach.
2. By 2023, 65% of the world’s population will have its personal information covered under modern privacy regulations.
3. 66+ jurisdictions around the world have proposed GDPR-style privacy protection laws.
4. 23.2 million victim accounts worldwide use 123456 as their password.
5. By 2023, 95% of the world’s population will have its personal information covered under modern privacy regulations.

Are you aware of these data breaches?

1. Separate incidents at two US healthcare organizations compromised the personal data of more than 190,000 patients.
2. A federal cabinet agency disclosed a security breach where personal information of 46,000 veterans was obtained by a malicious third-party.
3. The LockBit ransomware gang launched a new data leak site to be used as part of their double extortion strategy.
4. A database belonging to one of the world’s largest marketing companies leaked the records of over 800,000 users.
5. REvil gang advertised 337MB data of one of the largest IT staffing companies in the U.S on dark web.

Challenges faced by organizations

- Lack of visibility of sensitive data across the organization – Structured vs. Unstructured, Cloud vs. On-premise, Internal vs. External
- Protecting sensitive data from internal and external threats
- Comprehending the global privacy law requirements and building compliance roadmap
- Privacy program management and continual improvement
- Assess readiness and meet GDPR compliance requirements for safeguarding the privacy of data subjects - employees, customers and third-party suppliers

How can we help

Data Discovery and Classification Services
- Data Flow Analysis
- Data Discovery
- Data Classification

Data Protection Services
- Data Protection Advisory
- Data Protection Solution Implementation
- Data Loss Prevention including CASB
- Data Db Migration & Tokenization
- Data Encryption
- PKI & Certificate Management
- Data Base Activity Monitoring
- IRM

Data Privacy Services
- Data Privacy Gap and Impact Assessment
- Privacy Policy Design and Implementation
- Privacy by Design
- Vendor Risk Assessment
- Personal Data Breach Management
- Privacy Technology Management
