

AFTER MARKET SERVICES | AEROSPACE & DEFENCE

Overview

With increasing air traffic, it is of paramount importance to maximize operational efficiency, improve turn arounds in MROs and minimize Aircraft-on-Ground(AOG) in the aerospace industry through After Market Services.

Infosys' engineering unit has enabled clients to reduce AOGs through technical support, increase efficiencies in MRO Operations and reduce the service cost.

We have the necessary capabilities, capacity and products to meet your After Market Services needs in engineering and digital.

Our Solutions

Operational Support

Engineering technical support to MRO and airlines

Service Cost Reduction

Deliver technical solutions to reduce service cost across systems

Repair Solutions Development

Develop repair, vendor approvals and provide certification support

Methods Engineering / Maintenance Manuals

Develop innovative methods for maintenance operations, validation and release

Success Stories

Improved MRO efficiency by 25% through a smart MRO operations tool delivered for MRO shop

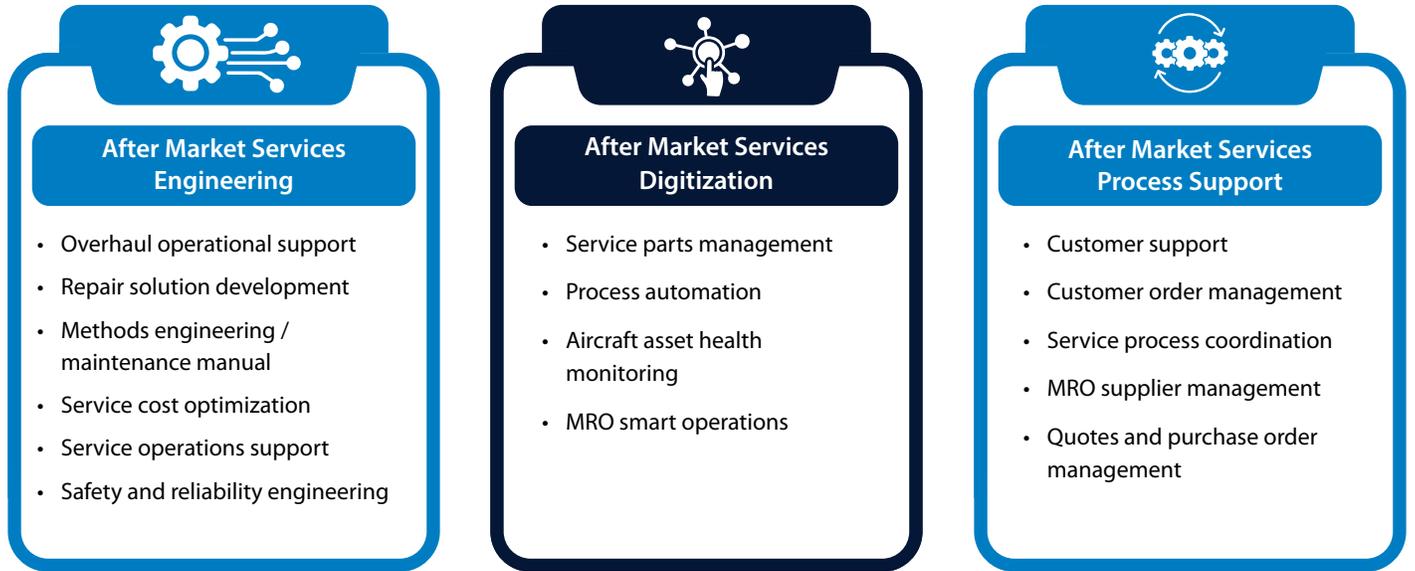

Enabled an aerospace customer to **realize \$10M USD saving** by delivering repairs, improving manuals and providing cost saving ideas for MROs through pre-planning to dispatch support

Reduced AOGs through 24x7 operations support for airlines, MROs and product improvements

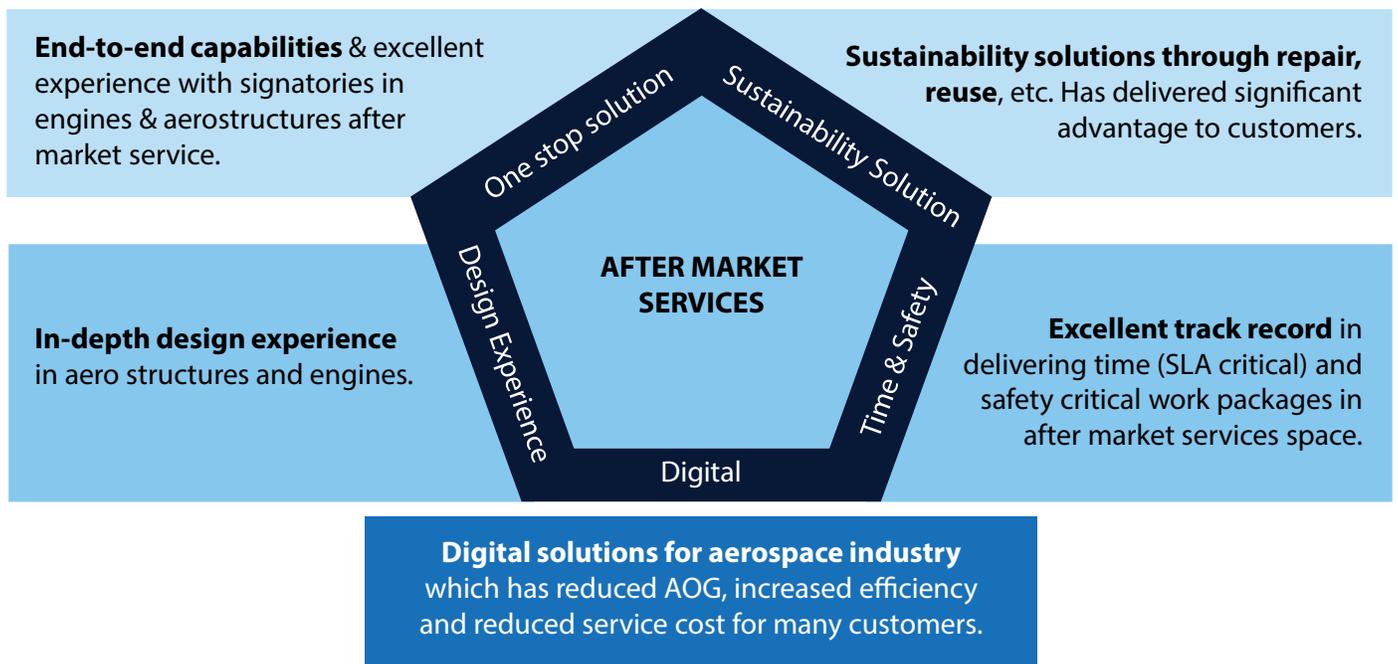

Conducted safety investigation by understanding the potential safety issues, root cause, mitigation action plan and substantiation, if proved as non-safety issue
