UNLOCK OPERATIONAL EXCELLENCE IN MANUFACTURING

LEVERAGE LOW-CODE INNOVATION TO ENHANCE PRODUCTIVITY, AGILITY, AND ENTERPRISE-WIDE VISIBILITY.

THE CHALLENGE

Excessive ERP customizations make even minor changes costly and risky, delaying critical enhancements. Additionally, slow innovation cycles and non-intuitive interfaces hinder agility, adoption, and time-to-value. Integrating advanced AI-driven intelligence into the ERP landscape further remains a significant challenge.

OUR SOLUTION - INFOSYS COBALT SAP SURROUND

This offering delivers a modern, role-based digital layer over Enterprise Applications by enabling tailored applications, automated workflows, real-time analytics, and AI-driven insights to enhance manufacturing operations. It is delivered through Microsoft Power Platform components such as Power Apps, Power Automate, Power BI, and Copilot Studio, seamlessly integrated with SAP systems. The solution is underpinned by low-code development, workflow automation, and advanced AI capabilities to drive efficiency, predictive insights, and improved decision-making.

KEY BENEFITS

Faster Time-to-Value
Accelerates innovation with low-code applications, automated workflows, and rapid deployment of solutions.

Improved Decision-Making
Enables real-time visibility and AI-driven insights for proactive, data-backed decisions across production, finance, and supply chain.

Reduced Downtime and Costs
Leverages predictive maintenance and AI-driven quality analytics to minimize failures and operational risks.

Enhanced Operational Efficiency
Streamlines processes such as scheduling, inventory, quality management, and maintenance through automation and real-time integration with ERP system.

Higher User Adoption
Delivers intuitive, role-based experiences that simplify interactions for shop floor and business users.

Future-Ready Intelligence
Integrates AI agents and Copilots to automate tasks, provide predictive insights, and enhance overall business agility.

BY THE NUMBERS

40% Reduction in ERP Customization Costs

300+ Global Manufacturing Clients Served

$2B Value Delivered for Clients

DIFFERENTIATORS

Infosys Differentiation (IP, Partnerships, Scale)

- 25+ Years Business Applications and Manufacturing Expertise.
- Leader in IDC MarketScape: Worldwide SAP Implementation Services 2025.
- Leader in ISG Provider Lens™ SAP Ecosystem Partners 2024 - US, Germany and Global.

Industry-Specific Accelerators and Frameworks

The offering is reinforced by manufacturing-specific accelerators, including pre-configured apps for production scheduling, quality management, inventory visibility, and predictive maintenance, reducing implementation effort and risk. Proven frameworks and reusable templates help standardize deployments while allowing flexibility for client-specific needs.

Ecosystem (Hyperscaler Alliances, ISV Partnerships)

The solution leverages a robust ecosystem anchored on Microsoft Azure and Power Platform, complemented by SAP integrations and select ISV connectors to extend functionality. This ecosystem ensures scalability, security, and seamless interoperability across enterprise systems.
