## Overview

Infosys Eco-o-Capture solution accelerates the adoption of sustainable lifestyles through tracking, reducing & removing CO2 emission from everyday life. To start the app, one needs to answer a set of simple questions. After answering those questions, it presents a customized relative emission chart which shows carbon emissions.

The app provides various categories to calculate carbon emission like Commute/Transport, Equipment/print usages. Each employee will have the option to feed data anonymously. This solution has been built on Microsoft Power Platform.
