

Date: 24th July 2018

To,

Environmental Engineer

Punjab Pollution Control Board

Plot no-55, Phase II

Opposite Bassi Theater, SAS Nagar, Punjab

Handwritten signature and date: 24/7/18

Sub: Submission of Environment Statement from 1st April 2017 to 31st March 2018

Dear Sir,

We hereby submit the Environment Statement as provided under rule 14 of the Environment (Protection) rules 1986 for the financial year 2017-18 ending 31st March 2018.

Thanking You,

For Infosys Limited

ANNEXURE

ENVIRONMENTAL STATEMENT FORM-V

(See rule 14)

Environmental Statement for the financial year 2017-18 ending with 31st March 2018

PART-A

*i. Name and address of the owner/
Occupier of the industry:* Infosys Limited
Plot No.i-3, IT city, Sector-83-A
SAS Nagar,
Mohali
Punjab

Operation or process: Software Development

ii. Industry category Primary-(SIC Code) Secondary- (SIC Code) N.A

iii. Production category. Units: Software Development

iv. Year of establishment: 2017

v. Date of the last environmental statement submitted: NIL

PART-B

Water and Raw Material Consumption:

i. Water consumption in m³/d

Process: N.A

Cooling: N.A

Domestic: 10 m³/d

Name of Products	Process water consumption per unit of products output	
	During the previous financial year	During the current financial year
1.	N. A	
2.		
3.		
4.		
5.		
6.		

ii. Raw material consumption

Name of raw materials*	Name of Products	Consumption of raw material per unit of output	
		During the previous financial year	During the current financial year

* Industry may use codes if disclosing details of raw material would violate contractual obligations, otherwise all industries have to name the raw materials used.

PART-C

Pollution discharged to environment/unit of output
(Parameter as specified in the consent issued)

Software Industry

Pollutants	Quantity of Pollutants discharged (mass/day)	Concentration of Pollutants discharged (mass/volume)	Percentage of variation from prescribed Standards with reasons.
(a) Water	-	-	-
(b) Air	-	-	-

PART-D

HAZARDOUS WASTES

(As specified under Hazardous Wastes (Management & Handling Rules, 1989).

Hazardous Wastes	During the current financial year (2017-18)
1. From Process	NIL
2. From Pollution Control Facilities	

PART - E

SOLID WASTES:

Solid Wastes	During the current financial year(2017-18)
a. From process	N.A
b. From Pollution Control Facility	Dry section sludge is used as manure in the campus
c. Quantity recycled or re-utilized within the unit.	NIL

PART-F

Please specify the characteristics (in terms of concentration and quantum) of hazardous as well as solid wastes and indicate disposal practice adopted for both these categories of wastes.

Sludge – Used as manure for landscaping

NIL as campus was operational from April 2017 and till date no hazardous waste or solid waste quantity has been disposed.

PART-G

Impact of the pollution control measures taken on conservation of natural resources and consequently on the cost of production

1. All the waste generated in the campus is collected in the scrap yard and sold to recyclers
2. Paper waste is shredded and sold to recyclers. One side blank pages are used as rough pads
3. Hazardous waste like Used Oil, E waste, DG filters etc. will be sold to authorized recyclers

Objective	Results
Trees plantation inside the campus for better biodiversity	5000 trees planted in 2017-18
Forums within Infosys to create awareness and drive the environment initiative	Teams formulated to drive the awareness camps in different fields
Zero discharge campus	All the waste water generated is routed to Sewage Treatment Plant with Single Membrane Bio-Reactor technology, the treated water is used for landscaping.

4. Training sessions are provided to employees and the contract staff on optimal use of the natural resource
5. LED and sensor lights are used in the campus
6. All the waste water generated in the campus is recycled in the campus through Sewage Treatment Plant and treated water is used for landscaping.
7. Meeting room converted to VC room for better employee interaction and a step towards saving environment.
8. Regular review meetings are conducted to keep a check on the progress of the EMS
9. All the critical equipment are under AMC, this helps to keep them efficient thus decreasing the pollution

PART - II

Additional measures/investment proposal for environmental protection including abatement of pollution

- Infosys has been certified compliant to ISO 14001 & ISO 18001 (OHSAS)
- Energy conservation practices implemented
- Efforts have been taken to minimize the use of plastics/ Thermocol within the campus
- Sustainability has been at the core of our business philosophy. Infosys Sustainability Report is published annually. Our sustainability report provides an update on the responsible business practices across social, environmental and economic parameters in accordance with the GRI 4.0 framework for the year 2016-17. It delineates our sustainability agenda across three areas – social contract, resource intensity, and green innovation.

Objective	Strategy	Results
Plantation of trees		5000 trees planted in 2017-18
Forums within Infosys to create awareness and drive the environment initiative	- Drive the initiative through and by the employees with management support.	

PART-I

MISCELLANEOUS:

Any other particulars in respect of environmental protection and abatement of pollution

Water is used in kitchens, toilets and the domestic sewage generated is recycled through Sewage Treatment Plant and recycled water is used for Landscaping, and cleaning of paths. Dry sludge is used as manure in the campus

LED lights in place of halogen lights and CFL's is being used in the campus.

The waste bins are identified with colour codes, awareness trainings are in place to ensure proper segregation at the source.

The disposal paper cups, bowls, plates etc. are replaced with reusable containers, which has drastically reduced our waste generation.

Reduction in the generation of:

- I. Effluents

Following are few of the clean technologies implemented to minimize generation of waste water:

- Flow restrictors for water taps, showers and health faucet

II. Emissions

- Low sulphur diesel is used for DG sets.

Steps for reuse / recycle of waste:

Waste is segregated at source by colour coded bins. The waste is routed to scrap yard and segregated waste is kept in designated locations for disposal.
