#### PART-F

Please specify the characteristics (in terms of concentration and quantum) of hazardous as well as solid wastes and indicate disposal practice adopted for both these categories of wastes.

Waste is segregated at source. A color code for bins has been devised and implemented for different types of waste.

The color codes are as follows:

- Green for bio-degradable waste
- Red for toxic waste.
- Blue for dry recyclable waste
- · Grey for e-waste

A focused approach to solid waste management has resulted in better disposal systems. Solid waste included all the Non-hazardous waste viz., paper/ cardboard waste, plastic waste, metal waste, wood waste and garden waste.

## Hazardous waste:

- ➤ Used Oil / filters / oil-soaked cotton waste NA
- ➤ Batteries NA.
- E waste Nil

➤ Food waste: All the food waste generated is collected in designated color-coded bins and sent our Organic waste converter and Biogas plant for further process.

#### PART-G

Impact of the pollution control measures taken on conservation of natural resources and consequently on the cost of production.

➤ We are ensuring 100% segregation of waste at source, stored and disposed as per applicable legal legislation

> We have installed pressure reducing valves in taps and pipes and flow restrictors which resulted in reduction of water consumption.

## PART - H

Additional measures/investment proposal for environmental protection including abatement of pollution.

- > Process optimization is followed to reduce our energy and water consumption
- > We continue to spread awareness among the employees on the conservation practices
- ➤ We are ensuring 100% segregation of waste at source, stored and disposed as per applicable legal legislation

#### PART-I

#### **MISCELLANEOUS:**

Any other particulars in respect of environmental protection and abatement of pollution

- > We carry out environmental quality monitoring for effluents as per the KSPCB standards.
- > We are ensuring 100% segregation of waste at source.
- > We have consistently ensured that we reduce, reuse, and recycle & dispose the waste responsibly.
- > We use green sealed chemicals for our housekeeping purpose.
- Monitoring of Lighting operations; Lighting controls at unoccupied workstations and at Food courts are carried out on regular basis.
