

KSPCB/FORM-V/2024-25/05

23rd September 2025

The Regional Officer,
KSPCB, Bommanahalli,
Nisarga Bhavan, 2nd Floor,
Thimmaiah Road, 7th 'D' Main,
Shivanagar, Opp. Pushpanjali Theatre,
Bengaluru – 560010.

Dear Sir/Madam,

Subject: Submission of Environmental Statement (Form - V) for Crescent SEZ Location, Bangalore

With reference to the subject above, we hereby submit the Environmental Statement (Form V) for the FY 2024-25 of our Infosys Limited (Crescent) situated at Plot No.57, 58, 59, 63, Sy No. 157, 158, 161, 64, 65, Electronics City Phase 1, Bangalore 560100. Enclosed the copies below for your reference.

- 1 Form-V
- 2 Copy of stack monitoring reports
- 3 Copy of ambient air quality analysis reports
- 4 Copy of treated sewage analysis reports

Yours Sincerely,

For INFOSYS LIMITED

Bhawesh Kumar

Form - V
Environmental Statement

April 2024 – March 2025

ANNEXURE

ENVIRONMENTAL STATEMENT FORM-V

(See rule 14)

Environmental Statement for the financial year ending with 31st March.

PART-A

<i>i. Name and address of the owner: occupier of the industry</i>	M/s Infosys Limited Crescent (SEZ) Plot No.57, 58, 59, 63, Sy No. 157, 158, 161, 64, 65, Electronic City Phase 1, Bangalore -560100
<i>Operation or process.</i>	Software Development
<i>ii. Industry category Primary- (STC Code) Secondary- (STC Code)</i>	Red Category
<i>iii. Production category. Units.</i>	Software Development
<i>iv. Year of establishment</i>	07.02.2020
<i>v. Date of the last environmental statement submitted.</i>	27.09.2024

PART-B

Water and Raw Material Consumption:

i. Water consumption in m³/d

Process: NA

Cooling: 14.75 m³/day

Domestic: 54.54 m³/day

Enclosures:

- 1) Copy of Test report for Treated Sewage
- 2) Copy of Test report for D.G set emissions
- 3) Copy of Test report for Ambient air quality

Name of Products	Process water consumption per unit of products output	
	During the previous financial year	During the current financial year
	NA	

ii. Raw material consumption

Name of raw materials*	Name of Products	Consumption of raw material per unit of output	
		During the previous financial year	During the current financial year
NA			

* Industry may use codes if disclosing details of raw material would violate contractual obligations, otherwise all industries have to name the raw materials used.

PART-C

Pollution discharged to environment/unit of output.
(Parameter as specified in the consent issued)

a) Water

Pollutants	Quantity of Pollutants discharged. (Kg/day)	Concentration of Pollutants discharged (Mass/Volume)	Percentage of variation from prescribed Standards with reasons.
pH	7.64	7.64	No Variations from the prescribed parameters & limits
BOD	0.15	3.92	
COD	0.49	12.67	
Total Suspended Solids	0.039	1.00	
Ammoniacal Nitrogen	0.010	0.25	
Total Nitrogen	0.039	1.00	
Fecal Coliform	1.502	38.58	

b) Air

Pollutants	Quantity of Pollutants discharged. (Kg/day)	Concentration of Pollutants Discharged (Mass/Volume)	Percentage of variation from prescribed Standards with reasons.
NO _x	2.2108	610.43	No Variations from the prescribed parameters & limits
Non methyl Hydrocarbon	0.0027	1.00	
PM	0.1738	48.00	
Carbon Monoxide	0.2129	85.69	

Note: The above-mentioned results are from the existing DG sets as specified in the Air Consent, derived by taking annual cumulative average from 04 DG sets.

PART-D

HAZARDOUS WASTES

[As specified under Hazardous and Other Wastes (Management and Transboundary Movement) Rules, 2016].

Hazardous Wastes	Total Quantity MT/A	
	During the current Financial year 2023-24	During the current Financial year 2024-25
1. Used Spent Oil	1.385 MT/A	0.575 MT/A
2. Wastes Residues Containing Oil	0.150 MT/A (Cotton waste & oil filters)	0.06 MT/A (Cotton waste & oil filters)
3. Empty barrels / Containers/ liners contaminated with hazardous chemicals/wastes.	0.140 MT/A	0.180 MT/A

PART - E

SOLID WASTES:

Solid Wastes	Total Quantity	
	During the current Financial year 2023-24	During the current Financial year 2024-25
a. From process	Food waste: 20709 Kgs STP Sludge waste: 3174 Kgs Other Solid wastes: NIL	Food waste: 55366 Kgs STP Sludge waste: 15822 Kgs Other Solid wastes: <ul style="list-style-type: none">• Paper waste – 2520 Kgs• Thermocol Waste – 58 Kgs• Glass waste – 60 Kgs
b. From Pollution Control Sources-STP	Sludge from STP 3174 Kgs	Sludge from STP 15822 Kgs
c. Quantity recycled or re-utilized within the unit.	Food waste is treated through inhouse OWC & Biogas plant. STP sludge is treated through inhouse sludge solar drying bed. All other solid wastes are disposed to the registered recyclers	Food waste is treated through inhouse OWC & Biogas plant. STP sludge is treated through inhouse sludge solar drying bed. All other solid wastes are disposed to the registered recyclers

PART -F

Please specify the characteristics (in terms of concentration and quantum) of hazardous as well as solid wastes and indicate disposal practice adopted for both these categories of wastes.

Waste is segregated at source. A color code for bins has been devised and implemented for different types of waste.

The color codes are as follows:

- Green for bio-degradable waste
- Red for toxic waste
- Blue for dry recyclable waste

A focused approach to solid waste management has resulted in better disposal systems. Solid waste included all the Non-hazardous waste viz., paper/ cardboard waste, plastic waste, metal waste, wood waste and garden waste.

Hazardous waste:

- Used Oil / filters / oil-soaked cotton waste – Disposed to registered KSPCB authorized recyclers/incinerator as per Hazardous Waste Rules
- Batteries – Disposed to registered KSPCB authorized battery recyclers.

Waste category	Total Quantity (MT/A)		Concentration	Disposal Practice
	During the current Financial year (FY 2023-24)	During the current Financial year (FY 2024-25)		
Batteries	Nil	Nil	Solid	The waste is disposed to authorized KSPCB recycler.

- E-waste – Disposed to registered KSPCB authorized recyclers as per E-Waste Rules.

Waste category	Total Quantity (MT/A)		Concentration	Disposal Practice
	During the current Financial year (FY 2023-24)	During the current Financial year (FY 2024-25)		
E-waste	Nil	Nil	Solid	The waste is disposed to authorized KSPCB recycler.

- Biomedical waste: Generated biomedical waste is disposed to registered KSPCB authorized incinerator.

Bio-medical waste Category	Total Quantity (Kgs/A)		Concentration	Disposal Practice
	During the current Financial year (FY 2023-24)	During the current Financial year (FY 2024-25)		
Yellow Bag	2.000 Kgs	7.33 Kgs	Solid	NA
Blue Bag	2.070 Kgs	5.70 Kgs		
Red Bag	0.530 Kgs	9.71 Kgs		
White Bag	2.060 Kgs	3.01 Kgs		

Non-Hazardous waste:

- Waste like paper, plastic, metal, wood and glass are segregated disposed to registered recyclers/ re-processors for further disposal. All the generated solid waste is stored and disposed through main campus. We have a centralized storage in the main E City Campus
- Dry sludge is sent to Sarjapur campus and used as manure which is generated from domestic sewage.
- Food waste: All the food waste generated is collected in designated color-coded bins and sent to our Biogas plant and Organic waste converter.

PART-G

Impact of the pollution control measures taken on conservation of natural resources and consequently on the cost of production.

- Low Sulphur diesel is used for DG sets.
- Rooftop solar system installed. The campus is using solar energy generated at our solar plant as a major source.
- We are ensuring 100% segregation of waste at source, stored, and disposed as per applicable legal legislation.
- Occupancy sensors are installed in the buildings to reduce the utilization of power.
- We have installed pressure reducing valves in taps and pipes and flow restrictors which resulted in reduction of water consumption.
- Rainwater harvesting system and purchase of treated sewage water implemented to reduced consumption of fresh water.

PART - H

Additional measures/investment proposal for environmental protection including abatement of pollution.

- Infosys has been certified to ISO 14001 :2015.
- Process optimization is followed to reduce our energy and water consumption.
- We continue to spread awareness among the employees on the conservation practices.
- We are ensuring 100% segregation of waste at source, stored, and disposed as per applicable legal legislation.
- We have installed Solar panels of total capacity 236.64 KWP.

PART-I

MISCELLANEOUS:

Any other particulars in respect of environmental protection and abatement of pollution

- We carry out environmental quality monitoring for Emissions and effluents as per the PCB standards.
- We are ensuring 100% segregation of waste at source.
- We continue to ensure the Color coding for different type of waste by segregating at the building level.
- We have consistently ensured that we reduce, reuse, and recycle & dispose the waste responsibly.
- Hazardous wastes are stored and disposed to authorized recyclers only, in adherence to applicable legislation.
- We use green sealed chemicals for our housekeeping purpose.
- Monitoring of Lighting operations; Lighting controls at unoccupied workstations and at Food courts are carried out on regular basis.
- BMS (Building management system) has been implemented.
- We have reduced the usage of tissue papers.
- We have implemented biodegradable plastics which helps in phasing out of single use & non-recyclable plastics.
- Installation of solar panels at SEZ roof top and the energy from Sira solar power plant is utilized for this building as well.
- We have planted inhouse plants (i.e., Shrubs, Herbs, Ground Covers, flowering plants, and creepers etc.)
