

To,
The Ministry of Forest and Climate Change
Regional Office Western Zone
Kendriya Paryawaran Bhawan, Link road 3
E-5 Ravi Shankar Nagar
Bhopal 462016

08-Nov-2021

Dear Sir/Madam,

Sub: Submission of Half Yearly Environmental Compliance report, of Infosys Campus, Indore.

Ref: Environmental Clearance issued by SEIAA-MP vide Lr No 2041 / SEIAA / 2015 dated 16-06-2015.

With reference to the above cited subject, we are submitting the **Environmental Compliance report** for period of April-21 to Sept-21 for our campus Located at Super corridor, Scheme No. 151 and 169 B Village Bada Bangarda and Tigaria Badshah, Indore MP 453112.

Please acknowledge the receipt of above

Thanking you,

Yours Sincerely,
For Infosys Limited

ENVIRONMENTAL COMPLIANCE STATUS REPORT

[APRIL 2021- SEPTEMBER 2021]

at

**Super Corridor, Tigari Badshah & Bada Bangarda villages, Hatod
Tehsil, Indore District, Madhya Pradesh**

FOR SUBMISSION

to

**MINISTRY OF ENVIRONMENT, FOREST & CLIMATE
CHANGE**

By

INFOSYS LIMITED, INDORE

INTRODUCTION

The proposed project is area development project "Infosys Campus" having total land area of 5,26,415.55 Sq.m and built-up area of 3,00,489.74 Sq.m by virtue of size of the plot area (more than 50 Ha) and built-up area more than 1,50,000 Sq.m , the project comes under 8(b) category (b) of schedule of EIA Notification 14.09.2006.

The project is located in Super Corridor, Tipgari Badshah & Bada Bangarda villages, Hatod Tehsil, Indore District, Madhya Pradesh.

The project was accorded Environmental Clearance by State Environment Assessment Authority, Madhya Pradesh Vide No. 2041/SEIAA/2015 dated 16.06.2015. **(Annexure-1)**

Consent to Establishment was obtained from Madhya Pradesh Pollution Control Board vide Lr. No.CTE-44918/MPPCB/IND dated 17.11.2015 **(Annexure-II)**

Consent to Operate/CCA was obtained from Madhya Pradesh Pollution Control Board vide Consent No:AWH-52938 **(Annexure-III)**

The present report consists of Half Yearly Compliance report of EC conditions for the period April 2021 to September 2021.

A. SPECIFIC CONDITIONS AS RECOMMENDED BY SEIAA

A. SPECIFIC CONDITIONS AS RECOMMENDED BY SEIAA

S.NO	Specific Condition	Compliance
1	PP should ensure that the entire water demand is met through Municipal Corporation, Indore and there is no extraction of Ground Water	Entire water demand is met by IMC. Invoice enclosed in annexure 4
2	PP should ensure zero discharge of treated waste water and linkage with municipal sewer line for discharge of treated waste water (if any)	The treated waste water is being used for Greenbelt development. No discharge .
3	PP should provide compactors for MSW and ensure linkage with Indore Municipal Corporation for final disposal of MSW	Since the generation of waste is minimal compactor not required.
4	PP should obtain authorization from MPPCB regarding Hazardous Waste Management	Consent to Operate/CCA was obtained from Madhya Pradesh Pollution Control Board vide Consent No:AWH-52938 dated Outward No:101988,07/02/2021
5	Bio Medical Waste (Handling and Management) rules should be followed strictly for the disposal of bio medical waste.	BMW waste rules followed
6	As per MPBVR, 2012 rule 42 (3) PP should submit necessary drawings and details to the Authority (Nagar Nigam ,Indore) incorporating all the fire fighting measures recommended in National Building Code part-IV point No.3.4.6.1. The Occupancy permit shall be issued by Nagar Nigam only after ensuring that all fire fighting measures are physically in place.	Master plan approved from T&CP and occupancy certificate obtained. Annexure 5,6 & 7
7	PP should ensure road width;MOS and open spaces as per MPBVR, 2012	Road width maintained, Approval enclosed in annexure 5

8	PP should ensure car parking as per rule no.84 Table clause 1(3) of MPBVR, 2012	Parking provided as per rule, approval enclosed in annexure 5
9	PP should ensure installation of photovoltaic cells (Solar panels in total roof area) for lighting in common areas, LED light fixtures and energy efficient equipment.	190 KWp of rooftop solar installed in campus, photographic evidence enclosed in annexure 8
10	PP should ensure Rainwater Harvesting	<ul style="list-style-type: none"> • Rooftop rainwater collected in a tank (of capacity 150 kL) and is used for potable purpose. • 08 no. of recharge wells provided for surface runoff at strategic locations based on the terrain of the site. • Artificial pond (capacity 23 Million liter) created in the campus for storing rainwater, and is used for landscaping purposes Annexure 9 enclosed for ref
11	The authority decided that PP should ensure three rows of plantation all along the periphery of the project area, parks, playground and avenue plantation along the roads. PP should ensure plantation of the trees of indigenous local varieties like Neem,Peepal, Kadam, kachnaar etc., Every effort should be made to protect the existing trees on the plot.	The Greenbelt developed all along the periphery of the project area. Native species of tree planted in campus, Pictures Enclosed

B. SPECIFIC CONDITIONS AS RECOMMENDED BY SEAC

S.NO	Specific Condition	Compliance
12	Company shall target for obtaining the Platinum Rating under Green Building Certification from LEED	LEED platinum certificate obtained. Annexure 10
13	Necessary Consents and authorization shall be	Consent to Establishment was obtained from Madhya Pradesh Pollution Control

S.NO	Specific Condition	Compliance
	obtained from MPPCB under the provisions of respective acts and rules	Board vide Lr. No.CTE-44918/MPPCB/IND dated 17.11.2015 Consent to Operate/CCA Consent No:AWH-52938 dated Outward No:101988,07/02/2021
14	Construction of STP and development of green areas shall be taken up along with the other project activities	Since only meagre operations are in place, an STP of 06 KLD & 93 KLD is constructed. Photographic evidence in annexure 11
15	At least 06 COC shall be maintained in the cooling tower	Cooling tower installed with 06 COC

A. OPERATION PHASE

Sl. No.	Condition	Compliance Status
1	The installation of the Sewage Treatment Plant (STP) as submitted by PP in the office of the SEIAA should be certified by an independent expert and a report in this regard should be submitted to the Regional office of the Ministry of Environment & Forest, GOI before the project is commissioned for operation. Treated effluent shall conform to the norms and standards of the M.P. Pollution Control Board. Necessary measures should be made to mitigate the odour problem from STP.	<ul style="list-style-type: none"> • STP is located strategically in the services area and away from any building. • MBR technology ensures proper treatment to the highest quality • Automation and proper aeration in the required tanks of STP ensures there is no stagnation and the odour generated is either nil /minimum. • Exhaust system has been provided in the STP to ensure safety of operations personnel and evacuation of odor.
2	Treated waste water should not be used for air conditioning.	The Treated Waste Water will be used for Greenbelt development.
3	Treatment of 100% grey water by decentralized treatment should be done.	Grey water treatment / STP is installed.
4	The bio-medical waste (if applicable) generated should be disposed off as per the provisions of Bio-Medical	BMW handling rules followed

	waste (Management and Handling) Rules 1988 as amended till date.	
5	Provision of separate entrance / exit gate should be made for collection of segregated bio-medical waste (if applicable) from the storage area.	Separate entrance provided
6	The solid waste generated should be properly collected and segregated. Wet garbage should be composted and dry/inert solid waste should be disposed off to the approved sites for land filling after recovering recyclable material as per CPCB norms.	Wet garbage is composted in an OWC. The dry solid waste will be disposed to authorized vendors.
7	Diesel power generating sets if proposed as source of backup power for elevators and common area illumination during operation phase should be of enclosed type and conform to rules made under the Environment (Protection) Act, 1986. The height of stack of DG sets should be equal to the height needed for the combined capacity of all proposed DG sets. Low sulphur diesel must be used. The location of the DG sets may be decided with in consultation with Madhya Pradesh Pollution Control Board.	02 DG Set of 625 kVA each is installed as on date. Low Sulphur diesel is used.
8	No water logging should take place at any point during operation phase.	Complied with the condition
9	The Project Proponent shall explore the possibility of using solar energy whenever possible.	190 KWp of roof top solar provided
10	Provision of plantation has to be made as per Madhya Pradesh Bhumi Vikas Niyam, 1984.	Plantation provided as per rule
11	Any hazardous waste generated during operation phase, should be disposed off as per applicable rules and norms with necessary approvals of the M.P. Pollution Control Board.	The used/spent oil generated from DG sets will be stored in covered cans and will be disposed to authorized vendors.
12	Noise should be controlled to ensure that it does not exceed the prescribed standards of CPCP.	Noise Level with in specified limit, Report enclosed in annexure 12

13	Weep holes in the compound walls shall be provided to ensure natural drainage of rainwater in the catchment area during the monsoon period.	Since boundary wall is not constructed from ground level, Pre-Fabricated boundary wall allows the natural flow of water pictures enclosed in annexure 13
14	Rainwater harvesting for roof run-off and surface run-off, should be implemented. Before recharging the surface run off, pre-treatment must be done to remove suspended matter, oil and grease. The bore well for rainwater recharging should be kept at least 5 mts. above the highest ground water table.	1. Rooftop rainwater collected in a tank (of capacity 150 kL) and is used for potable purpose. 2. 08 no. of recharge wells provided for surface runoff at strategic locations based on the terrain of the site. 3. Artificial pond (capacity 23 Million liter) created in the campus for storing rainwater, and use it for landscaping purposes. 4. Picture enclosed in annexure 14 5. Injection well plan report enclosed in annexure 15
15	The ground water level and its quality should be monitored regularly in consultation with Central Ground Water Authority.	Since we do not have approval for drawing ground water monitoring not applicable
16	Traffic congestion near the entry and exit points from the roads adjoining the proposed project site must be avoided. Parking should be fully internalized and no public space should be utilized.	No traffic congestion in present and 02 entrance have been provided to avoid congestion
17	A Report on the energy conservation measures confirming to energy conservation norms finalize by Bureau Efficiency should be prepared incorporating details about building materials & technology, R&U Factors etc and submit to the Regional office of Ministry of Environment & Forest, GOI in three months time.	Building is constructed keeping highest energy conservation standard and have obtained LEED platinum

18	Energy conservation measures like installation of CFLs/TFLs for the lighting the areas outside the building should be integral part of the project design and should be in place before project commissioning. Used CFLs and TFLs should be properly collected and disposed off/sent for recycling as per the prevailing guidelines / rules of the regulatory authority to avoid mercury contamination. Use of solar panels may be done to the extent possible.	Only low energy consuming lights i.e. LED has been used inside campus
19	The building should have adequate distance between them to allow movement of fresh air and passage of natural light, air and ventilation.	Sufficient space has been provided between building for ventilation
20	The area earmarked for the parking shall be used for parking only. No other activity shall be permitted in this area.	Parking Space is only used for parking
21	Ozone Depleting Substances (Regulation & Control) Rules shall be followed while designing the air conditioning system (if any) of the project.	There is no use of ozone depleting gases (R22) in cooling tower

A. OTHERS

Sl. No.	Condition	Compliance Status
1	All activities/mitigative measures proposed by PP in Environment Impact Assessment (if applicable) and approved by SEAC must be ensured	activities/mitigative measures proposed by PP in Environment Impact Assessment (if applicable) and approved by SEAC is ensured
2	All activities/mitigative measures proposed by PP in Environment Management Plan and approved by SEAC must be ensured	Ensured

3	All Parameters listed in Environmental Monitoring Plan approved by SEAC must be monitored at approved locations and frequencies	The Env. Monitoring reports are enclosed as Annexure-16 to Annexure-20
4	Project Proponent has to strictly follow the direction/guidelines issued by MoEF, CPCB and Other Govt. agencies from time to time	Noted
5	The funds earmarked for environmental protection measures shall be kept in separate account and shall not be diverted for other purpose. Year wise expenditure shall be reported to the MoEF, GoI, and its regional office located at Bhopal	Separate head of account maintained
6	The Ministry or any competent authority may alter/modify the conditions or stipulate any further condition in the interest of environment protection	Agreed
7	The Environment Clearance shall be valid for a period of five years from the date of issue of this letter	Noted
8	The Project Proponent shall also submit six monthly compliance reports on 01 st June and 01 st December of each calendar year on the status of compliance of the stipulated EC Conditions including results of monitored data to the regulatory authority in hard and soft copies.	Noted.
9	The Regional Office, MoEF, GoI, Bhopal and MPPCB shall monitor compliance of the stipulated conditions. A complete set of documents including Environment Impact Assessment Report, Environment Management Plan and other documents information should be given to the Regional Office, of the MoEF, GoI at Bhopal and MPPCB	Agreed.

10	The Project Proponent shall inform to the Regional Office, of the MoEF, Gol at Bhopal and MPPCB regarding date of financial closures and final approval of the project by the concerned authorities and the date of start of land development work	Noted
11	In the case of expansion or any change(s) in the scope of the project, the project shall again require prior Environmental Clearance as per EIA Notification 2006	Noted
12	The SEIAA of M.P reserves the right to add additional safeguard measures subsequently, if found necessary, and to take action including revoking of the environmental clearance under the provisions of the Environmental (protection) Act, 1986, to ensure effective implementation of the suggested safeguard measures in a time bound and satisfactory manner	Noted
13	All other statutory clearances such as the approval for the storage of diesel from Chief Controller of Explosives, Fire Department, Civil Aviation Department, Forest Conservation Act, 1980 and Wildlife (Protection) Act 1972 etc, shall be obtained (as and when applicable), by the project proponent from the respective competent authorities.	Noted
14	These stipulations would be enforced among others under the provisions of Water (prevention and Control of Pollution)Act, 1974, the Air (prevention and Control of Pollution) Act 1981, the Environment (Protection) Act 1986, the Public Liability (Insurance) Act 1991 and EIA Notification, 2006.	Noted
15	The Proponent shall upload the status of compliance of the stipulated EC Conditions including results of	Compliance status are uploaded in Infosys website and display board erected at gate

	<p>monitored data on their website and shall update the same periodically. It shall simultaneously be sent to the Regional Office of MoEF, the respective Zonal Office of CPCB and the SPCB. The Criteria Pollutant levels namely: SPM,RSPM,SO₂,NO_x (ambient levels as well as stack emissions) or critical sectorial parameters indicated for the project shall be monitored and displayed at a convenient location near the main gate of the company and in the public domain</p>	
16	<p>The environmental statement for the each financial year ending 31st March in Form-V as is mandated to be submitted by the project Proponent to the concerned State Pollution Control Board as prescribed under the Environment (Protection) Rules 1986, as amended subsequently, shall also be put on the website of the company along with the status of Compliance of EC Conditions and shall also be sent to the Regional Office of MoEF</p>	Noted
17	<p>Concealing factual data or submission of false/fabricated data and failure to comply with any of the conditions mentioned above may result in withdrawal of this clearance and attract action under the provisions of Environment (Protection) Act 1986</p>	Noted
18	<p>A Copy of the Environmental Clearance shall be submitted by the Project Proponent to the Heads of the Local Bodies, Panchayat and Municipal Bodies as applicable in addition to the relevant officers of the Government who in turn has to display the same for 30 days from the date of receipt</p>	Complied

19	<p>The project Proponent shall advertise at least in two local newspapers widely circulated, one of which shall be in the vernacular language of the locally concerned, within 7 days of the issue of the clearance letter informing that the project has been accorded environmental clearance and the copy of the clearance letter is available with the State Pollution Control Board and also at the website of the State Level Environment Impact Assessment Authority (SEIAA) at www.mpseiaa.nic.in and a copy of the same shall be forwarded to the Regional Office, MoEF, GoI at Bhopal.</p>	<p>The condition was complied. Enclosed as Annexure-21</p>
20	<p>Any appeal against this prior environmental clearance shall lie with the Green Tribunal, if necessary, within a period of 30 days as prescribed under section 16 of the National Green Tribunal Act, 2010.</p>	<p>Noted</p>

Head Infrastructure & Security,
Plot No.-44, Electronic City,
Hosur Road, Bangalore -560100

Sub:- Case No. 1753/2014 Prior Environmental Clearance proposed Project "Infosys Campus" at Super Corridor, Village Tigriya Badshah & Bada Bangarda, Tehsil Hatod, Distt. Indore (MP); Total Project Area 5,26,415.55 sq.m; built-up area 3,00,489.74 sq.m. by M/s Infosys Ltd. through Shri Ramdas Kamath, Senior. VP, Head Infrastructure & Security, Plot No.-44, Electronic City, Hosur Road, Bangalore-560100 Email: ramdasuk@Infosys.com Env.Consultant: DAS India, Lucknow (UP)

Ref: Your application dtd. 03.09.2014 received in SEIAA office on 03.09.2014.

With reference to above the proposal has been appraised as per prescribed procedure & provisions under the EIA notification issued by the Ministry of Environment & Forests vide S.O. 1533 (E), dated 14.09.2006 and its amendment, on the basis of the mandatory documents enclosed with the application viz., Form I, Form IA, Conceptual Plan, drawings and subsequently submission of EIA & the additional clarifications furnished in response to the observations of the State Expert Appraisal Committee (SEAC) and State Environment Impact Assessment Authority (SEIAA) constituted by the competent Authority.

- The proposed project is area development project "Infosys Campus" having total land area 5,26,415.55 sq.m; & built up area is 3,00,489.74 sq.m by virtue of the size of plot area (more than 50 ha) and built up area more than 1,50,000 sqmt. the project comes under 8(b) category (B) of schedule of EIA Notification, 2006.
- Approval of T & CP, Indore has been granted vide letter no.1558 dtd. 04.03.14. The total land area proposed by PP is 5,26,415.55 sq.m at SEZ, Super Corridor Tigriya Badshah & Bada Bangarda, Tehsil Hatod, Distt. Indore (MP). A lease agreement dtd 29.10.2012 has been executed between Governor of Madhya Pradesh through Secretary of Department of Information & Technology and M/s Infosys Ltd. through Sr. Vice President Shri U. Ramdas Kamath for period 99 Years (From 29/10/2012 to 28/10/2111) for area of 52.643 ha (130.08 acres).
- The source of water supply is Municipal Corporation, Indore. The total water requirement is 1559 KLD (fresh water 653 KLD). The waste water generation is 825 KLD and STP capacity is 1000 KLD. The net treated waste water is 784 KLD.

Member Secretary

Case No. 1753/2014

Issued vide letter no. 2041/15 dated 16.8.15

Case No.: To be quoted in registered cases for correspondence

1 of 3

which is proposed to be 100% recycled for flushing, DG set cooling, HVAC cooling & horticulture.

- iv. The MSW (4263 kg per day) is proposed to be segregated at source and collected on a daily basis and managed as per MSW Rule, through hired agency. Final disposal shall be through Municipal Corporation, Indore.

Hazardous waste (E-waste) generated 50 MT/annum which is proposed to be collected in separate bins and sold to the CPCB recognized recyclers.

Approximately 0.5 kg/day Bio Medical waste will be generated which is proposed to be collected as per the Bio Medical waste handling and management rules and handed over to authorized agency.

- v. PP has proposed to provide fire water storage tank, external and internal fire hydrant sprinkler system, wet riser and down comer system etc. as per NBC 2005
- vi. As per T & CP approval the maximum height of the building is 45 m. PP has provided road width 75 m; Front MOS 45 m and side MOS 17.80 m/15.10 m and rear MOS 330.0 m
- vii. PP has proposed to provide total car parking of 4544 ECS (surface 600 ECS, MLCP 3944 ECS & Two wheeler 660).
- viii. The total power requirement is 5599 KW or 5894 KVA. PP has also proposed power back up 4 DG Sets 2000 KVA. The source of power supply is MP Electricity Board.
- ix. PP has proposed Rain water harvesting through lakes and use of this harvested water for consumption and artificial recharge of ground water.
- x. Out of the total project area 52.614 ha an area of 316477.11 sq.m. (31.647 ha) (60.12%) is proposed to be developed as green area.

Based on the information submitted at Para i to x above and others, the State Level Environment Impact Assessment Authority (SEIAA) considered the case in its 197th meeting held on 07.05.15 and decided to accept the recommendations of 182nd SEAC meeting held on dtd. 28.03.15

Hence, Environmental Clearance is accorded under the provisions of EIA notification dtd. 14th September 2006 to the proposed "Infosys Campus" at SEZ Super Corridor, Village Tigriya Badshah and Bada Bangarda, Tehsil Hatod, Distt. Indore (MP); Total Project Area 5,26,415.55 sq.m (52.614 ha); built-up area 3,00,489.74 sq.m. by M/s Infosys Ltd. through Shri Ramdas Kamath, Senior. VP, Head Infrastructure & Security, Plot No.-44, Electronic City, Hosur Road, Bangalore (Karnataka) subject to the compliance of the Standard Conditions enclosed at Annex-I and the following additional Specific Conditions as recommended by SEIAA & SEAC in its meetings.

A. Specific Conditions as recommended by SEIAA

1. PP should ensure that the entire water demand is met through Municipal Corporation, Indore and there is no extraction of ground water.
2. PP should ensure zero discharge of treated waste water and linkage with municipal sewer line for discharge of treated waste water (if any).
3. PP should provide compactors for MSW and ensure linkage with Indore Municipal Corporation for final disposal of MSW.

(Gulshan Bamra)
Member Secretary

4. PP should obtain authorization from MPPCB regarding Hazardous waste management.
5. Bio Medical Waste (Handling and management) rules should be followed strictly for the disposal of bio medical waste.
6. As per MPBVR, 2012 rule 42 (3) PP should submit necessary drawings and details to the Authority (Nagar Nigam, Indore) incorporating all the fire fighting measures recommended in National Building Code part – IV point no. 3.4.6.1. The occupancy permit shall be issued by Nagar Nigam only after ensuring that all fire fighting measures are physically in place.
7. PP should ensure road width; MOS and Open spaces as per MPBVR 2012.
8. PP should ensure car parking as per Rule no.84 Table Clause1(3)of MPBVR2012.
9. PP should ensure installation of photovoltaic cells (solar panels in total roof area) for lighting in common areas, LED light fixtures and energy efficient equipments.
10. PP should ensure rain water harvesting.
11. The authority decided that PP should ensure three rows of plantation all along the periphery of the project area, parks, playground and avenue plantation along the roads. PP should ensure plantation of the trees of indigenous local varieties like Neem, Peepal, Kadam, Kachnaar etc. Every effort should be made to protect the existing trees on the plot.

B. Specific Conditions as recommended by SEAC

12. Company shall target for obtaining the Platinum Rating under Green building Certification from LEED.
13. Necessary consents and authorization shall be obtained from MPPCB under the provisions of respective Acts & rules.
14. Constuction of STP and development of green areas shall be taken up along with the other project activities.
15. At least 06 COC shall be maintained in the cooling tower.

Annex-I

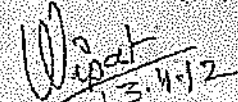

Standard Conditions related to under item 8 (a) & 8 (b) of the schedule of EIA
notification, 2006

(Building/ construction projects / area development projects & township)

A. Construction Phase

1. The construction site shall be provided with adequately barricades of at least 3 m height on its periphery with adequate signage.
2. All required sanitary and hygienic measures should be in place before starting any construction work and are to be maintained throughout the project phase.
3. Provision shall be made for the housing of construction labour within the site with all necessary infrastructure and facilities such as fuel for cooking, mobile toilets, safe drinking water, medical health care, crèche etc. The housing may be in the form of temporary structures to be removed after the completion of the project.
4. Occupational health and safety measures for the workers including identification of work related health hazards, training on malaria eradication, HIV, and health effects on exposure to dust etc. shall be carried out. Periodic monitoring for exposure to respirable dust on the workers shall be conducted and records maintained including health records of the workers. Awareness programme for workers on impact of dust on their health and precautionary measures like use of personal equipments etc. shall be carried out periodically.
5. A First Aid Room will be provided in the project both during construction and operation of the project.
6. All the topsoil excavated during construction activities should be stored for use in horticulture/landscape development within the project site.
7. Disposal of muck during construction phase should not create any adverse effect on the neighbouring communities and be disposed taking the necessary precautions for general safety and health aspects of people, only in approved sites with the approval of competent authority.
8. Soil and ground water samples will be tested to ascertain that there is no threat to ground water quality by leaching of heavy metals and other toxic contaminants.
9. Construction spoils, including bituminous material and other hazardous materials, must not be allowed to contaminate water courses and the dump sites for such material must be secured so that they should not leach into the ground water.
10. Any hazardous waste generated during construction phase, should be disposed off as per applicable rules and norms with necessary approvals of the M.P. Pollution Control Board.

Research and Development Wing, Madhya Pradesh Pollution Control Board,
Paryavaran Parisar, E-5, Arera Colony, Bhopal-4620 16

The diesel generator sets (if any) to be used during construction phase should be low sulphur diesel type and should conform to Environment (Protection) Rules prescribed for air and noise emission standards.

The diesel required (if any) for operating DG sets shall be stored in underground tanks and if required, clearance from Chief Controller of Explosives shall be taken.

Wastewater generated from temporary labour tents will be diverted to the sewer network in the area.

No water logging should take place at any point during construction phase.

If the project site is located within the 100 km of Thermal Power Stations, then fly ash should be used as building material in the construction as per the provisions of Fly ash Notification of September, 1999 and amended as on 27th August, 2003.

As far as possible ready mixed concrete should be used in construction work.

Vehicles hired for bringing construction material to the site should be in good condition and should have a pollution check certificate and should conform to applicable air and noise emission standards and should be operated only during non-peak hours.

Ambient noise levels should conform to residential standards both during day and night. Incremental pollution loads on the ambient air and noise quality should be closely monitored during construction phase. Adequate measures should be made to reduce ambient air and noise level during construction phase, so as to conform to the stipulated standards by CPCB/ MPPCB.

Storm water control and its use should be as per CGWB and BIS standards for various applications.

Water demand during construction should be reduced by use of pre-mixed concrete, curing agents and other best practices referred.

Care shall be taken during the wet drilling activities.

Spread of contaminated water should be prevented by installing temporary barriers of G.I. sheets.

To prevent surface and ground water contamination by oil/grease, leak proof containers shall be used for storage and transportation of oil/grease. The floors of oil/grease handling area will be kept effectively impervious.

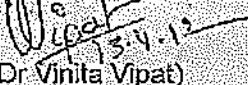

On-site burning of waste material will not be permitted.

Ground water should not be used during construction phase. Private tanker water suppliers may be asked to supply water during construction phase.

Commitment towards GSR have to be followed strictly.

Fixtures for showers, toilet flushing and drinking should be of low flow either by use of aerators or pressure reducing devices or sensor based control.

Research and Development Wing, Madhya Pradesh Pollution Control Board,
Paryavaran Parisar, E-5, Arera Colony, Bhopal-4620 16

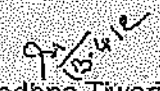

28. Wherever possible, the area around the STP / ETP should be surrounded with dense green belt.
29. To reduce the electricity consumption and load on air conditioning, high quality double glass with special reflective coating in windows should be promoted.
30. Roof should meet prescriptive requirement as per Energy Conservation Building Code by using appropriate thermal insulation material to fulfill requirement.
31. Opaque wall should meet prescriptive requirement as per Energy Conservation Building Code which is proposed to be mandatory for all air-conditioned spaces while it is aspirational for non-air conditioned spaces by use of appropriate thermal insulation material to fulfill requirement.
32. Approval of the competent authority shall be obtained for structural safety of the buildings due to earthquake, adequacy of fire fighting equipments, etc. as per National Building Code including protection measures from lightning etc.

Operation Phase

1. The installation of the Sewage Treatment Plant (STP) as submitted by PP in the office of SEIAA should be certified by an independent expert and a report in this regard should be submitted to the Regional office of the Ministry of Environment & Forest, Govt before the project is commissioned for operation. Treated effluent discharge from STP shall be recycled/reused to the maximum extent possible. Treated effluent shall conform to the norms and standards of the M.P. Pollution Control Board. Necessary measures should be made to mitigate the odour problem from STP.
2. Treated waste water should not be used for air conditioning.
3. Treatment of 100% grey water by decentralized treatment should be done.
4. The bio-medical waste (if applicable) generated should be disposed off as per the provisions of Bio-medical waste (Management and Handling) Rules 1988 as amended till date.
5. Provision of separate entrance / exit gate should be made for collection of segregated bio-medical waste (if applicable) from the storage area.
6. The solid waste generated should be properly collected and segregated. Wet garbage should be composted and dry/inert solid waste should be disposed off to the approved sites for land filling after recovering recyclable material as per CPCB norms.
7. Diesel power generating sets if proposed as source of back up power for elevators and common area illumination during operation phase should be of enclosed type and conform to rules made under the Environment (Protection) Act, 1986. The height of stack of DG sets should be equal to the height needed for the combined capacity of all proposed DG sets. Low sulphur diesel must be used. The location of the DG sets may be decided with in consultation with Madhya Pradesh Pollution Control Board.

8. No water logging should take place at any point during operation phase.
9. The Project Proponent shall explore the possibility of using solar energy wherever possible.
10. Provision for plantation has to be made as per Madhya Pradesh Bhumi Vikas Niyam, 1984.
11. Any hazardous waste generated during operation phase, should be disposed off as per applicable rules and norms with necessary approvals of the M.P. Pollution Control Board.
12. Noise should be controlled to ensure that it does not exceed the prescribed standards of CPCB.
13. Weep holes in the compound walls shall be provided to ensure natural drainage of rain water in the catchment area during the monsoon period.
14. Rain water harvesting for roof run-off and surface run-off, should be implemented. Before recharging the surface run off, pre-treatment must be done to remove suspended matter, oil and grease. The bore well for rainwater recharging should be kept at least 5 mts. above the highest ground water table.
15. The ground water level and its quality should be monitored regularly in consultation with Central Ground Water Authority.
16. Traffic congestion near the entry and exit points from the roads adjoining the proposed project site must be avoided. Parking should be fully internalized and no public space should be utilized.
17. A Report on the energy conservation measures conforming to energy conservation norms finalized by Bureau of Energy Efficiency should be prepared incorporating details about building materials & technology, R & U Factors etc and submit to the Regional office of Ministry of Environment & Forest, Govt. in three months time.
18. Energy conservation measures like installation of CFLs/TFLs for the lighting the areas outside the building should be integral part of the project design and should be in place before project commissioning. Used CFLs and TFLs should be properly collected and disposed off/sent for recycling as per the prevailing guidelines/ rules of the regulatory authority to avoid mercury contamination. Use of solar panels may be done to the extent possible.
19. The building should have adequate distance between them to allow movement of fresh air and passage of natural light, air and ventilation.
20. The area earmarked for the parking shall be used for parking only. No other activity shall be permitted in this area.
21. Ozone Depleting Substances (Regulation & Control) Rules shall be followed while designing the air conditioning system (if any) of the project.

C. Others

1. All activities / mitigative measures proposed by PP in Environmental Impact Assessment (if applicable) and approved by SEAC must be ensured.
2. All activities / mitigative measures proposed by PP in Environmental Management Plan and approved by SEAC must be ensured.
3. All parameters listed in Environmental Monitoring Plan approved by SEAC must be monitored at approved locations and frequencies.
4. Project Proponent has to strictly follow the direction/guidelines issued by MoEF, CPCB and other Govt. agencies from time to time.
5. The funds earmarked for environmental protection measures shall be kept in separate account and shall not be diverted for other purpose. Year wise expenditure shall be reported to the MoEF, GoI, and its Regional Office located at Bhopal.
6. The Ministry or any other competent authority may alter/modify the conditions or stipulate any further condition in the interest of environment protection.
7. The Environmental Clearance shall be valid for a period of five years from the date of issue of this letter.
8. The project proponent shall also submit six monthly reports on 1st June and 1st December of each calendar year on the status of compliance of the stipulated EC conditions including results of monitored data to the regulatory Authority in hard and soft copies.
9. The Regional Office, MoEF, GoI, Bhopal and MPPCB shall monitor compliance of the stipulated conditions. A complete set of documents including Environment Impact Assessment Report, Environmental Management Plan and other documents information should be given to Regional Office of the MoEF, GoI at Bhopal and MPPCB.
10. The Project Proponent shall inform to the Regional Office, MoEF, GoI, Bhopal and MP PCB regarding date of financial closures and final approval of the project by the concerned authorities and the date of start of land development work.
11. In the case of expansion or any change(s) in the scope of the project, the project shall again require prior Environmental Clearance as per EIA notification, 2006.
12. The SEIAA of M.P. reserves the right to add additional safeguard measures subsequently, if found necessary, and to take action including revoking of the environment clearance under the provisions of the Environmental (Protection) Act, 1986, to ensure effective implementation of the suggested safeguard measures in a time bound and satisfactory manner.
13. All other statutory clearances such as the approvals for storage of diesel from Chief Controller of Explosives, Fire Department, Civil Aviation Department, Forest Conservation Act, 1980 and Wildlife (Protection) Act, 1972 etc. shall be obtained (as and when applicable), by the project proponent from the respective competent authorities.

Dated 16.6.12

State Environment Impact Assessment Authority, M.P.

(Government of India, Ministry of Environment & Forests)

Research and Development Wing, Madhya Pradesh Pollution Control Board,
Paryavaran Parisar, E-5, Arera Colony, Bhopal-4620 16

14. These stipulations would be enforced among others under the provisions of Water (Prevention and Control of Pollution) Act, 1974, the Air (Prevention and control of Pollution) act 1981, the Environment (Protection) Act, 1986, the Public Liability (Insurance) Act, 1991 and EIA Notification, 2005.
15. The proponent shall upload the status of compliance of the stipulated EC conditions, including results of monitored data on their website and shall update the same periodically. It shall simultaneously be sent to the Regional Office of MoEF, the respective Zonal Office of CPCB and the SPCB. The criteria pollutant levels namely; SPM, RSPM, SO₂, NOx (ambient levels as well as stack emissions) or critical sectoral parameters, indicated for the project shall be monitored and displayed at a convenient location near the main gate of the company and in the public domain.
16. The environmental statement for each financial year ending 31st March in Form-V as is mandated to be submitted by the project proponent to the concerned State Pollution Control Board as prescribed under the Environment (Protection) Rules, 1986, as amended subsequently, shall also be put on the website of the company along with the status of compliance of EC conditions and shall also be sent to the Regional Office of MoEF.
17. Concealing factual data or submission of false/fabricated data and failure to comply with any of the conditions mentioned above may result in withdrawal of this clearance and attract action under the provisions of Environment (Protection) Act, 1986.
18. A copy of the environmental clearance shall be submitted by the Project Proponent to the Heads of the Local Bodies, Panchayat and municipal bodies as applicable in addition to the relevant officers of the Government who in turn has to display the same for 30 days from the date of receipt.
19. The Project Proponent shall advertise at least in two local newspapers widely circulated, one of which shall be in the vernacular language of the locality concerned, within 7 days of the issue of the clearance letter informing that the project has been accorded environmental clearance and a copy of the clearance letter is available with the State Pollution Control Board and also at website of the State Level Environment Impact Assessment Authority (SEIAA) at www.mpseiaa.nic.in and a copy of the same shall be forwarded to the Regional Office, MoEF, GoI, Bhopal.
20. Any appeal against this prior environmental clearance shall lie with the Green Tribunal, if necessary, within a period of 30 days as prescribed under Section 16 of the National Green Tribunal Act, 2010.

M.P. Pollution Control Board
E-5, Arera Colony
Paryavaran Parisar, Bhopal - 16 MP
Tele : 0755-2466191, Fax-0755-2463742

CONDITIONS PERTAINING TO WATER (PREVENTION & CONTROL OF POLLUTION) ACT 1974 :-

1. The daily quantity of trade effluent at out fall of the unit shall not exceed 0.000 KL/day, and the daily quantity of sewage at out fall of the unit shall not exceed 825.000 KL/day

2. Trade Effluent Treatment:-

The applicant shall provide comprehensive effluent treatment system as per the proposal submitted to the Board and maintain the same properly to achieve following standards-

pH	Between	5.5 - 9.0	TDS	Not exceed	2100 mg/l.
Suspended Solids	Not exceed	100 mg/l.	Chlorides	Not exceed	1000 mg/l.
BOD 3 Days 27°C	Not exceed	30 mg/l.			
COD	Not exceed	250 mg/l.			
Oil and grease	Not exceed	10 mg/l.			

For other parameters general standards of discharge as notified under EP Act 1986 shall be applicable.

3. Sewage Treatment :- The applicant shall provide comprehensive sewage treatment system as per the proposal submitted to the Board and maintain the same properly to achieve following standards-

pH	Between	5.5 - 9.0
Suspended Solids	Not exceed	100 mg/l.
BOD 3 Days 27°C	Not exceed	100 mg/l.
COD	Not exceed	250 mg/l.
Oil and grease	Not exceed	10 mg/l.

4. The effluent shall be treated up to prescribed Standards and reuse in the process, for cooling and for green belt devolvement/gardening within premises. Hence zero discharge condition shall be practiced. In no case treated effluent shall be discharged outside of industry/unit premises.

5. Water meter preferably electromagnetic/ultrasonic type with digital flow recording facilities shall be installed separately for category wise consumption of water as per Water (Prevention and Control of Pollution) Cess Act 1977 for Industrial cooling/boiler feed, mine spray, process & domestic purposes and data shall be submitted online through monthly patrak/statements. The industry/unit shall also monitor the treated wastewater flow and report the same online through monthly patrak/statements.

6. Any change in production capacity, process, raw martial used etc. and for any enhancement of the above prior permission of the Board shall be obtained. All authorized discharges shall be consistent with terms and conditions of this consent. Facility expansions, production increases or process modifications which result new or increased discharges of pollutants must be reported by submission of a fresh consent application for prior permission of the Board.

7. All treatment/control facilities/systems installed or used by the applicant shall be regularly maintained in good working order and operate effectively/efficiently to achieve compliance of the terms and conditions of this consent.

8. The Consent does not authorize or approve the Construction of any physical structures or facilities or the undertaking of any work in any water course or within its high flood level (HFL) area

9. Compilation of Monit

i. Samples and measurements taken to meet the monitoring requirements specified above shall be representative of the volume and nature of monitored discharge.

Outward No: 246875/17/11/2015
ii. Following promulgation of guidelines establishing test procedures for the analysis of pollutants, all sampling and analytical methods used to meet the monitoring requirements specified above shall conform to such guidelines unless otherwise specified sampling and analytical methods shall conform to the latest edition of the Indian Standard specifications and where it is not specified the guidelines as per standard methods for the examination of Water and Waste latest edition of the American Public Health Association, New York U.S.A. shall be used.

iii. The applicant shall take samples and measurement to meet the monthly requirements specified above and report online the same to the Board.

10. Recording of Monitor

i. The applicant shall make and maintain online records of all information resulting from monitoring activities by this

Consent Order

M.P. Pollution Control Board
E-5, Arera Colony
Paryavaran Parisar, Bhopal - 16 MP
Tele : 0755-2466191, Fax-0755-2463742

Consent.

ii. The applicant shall record for each measurement of samples taken pursuant to the requirements of this Consent as follows:

- (i) The date, exact place and time of sampling
- (ii) The dates on which analysis were performed
- (iii) Who performed the analysis?
- (iv) The analytical techniques or methods used and
- (v) The result of all required analysis

iii. If the applicant monitors any Pollutant more frequently as is by this Consent he shall include the results of such monitoring in the calculation and reporting of values required in the discharge monitoring reports which may be prescribed by the Board. Such increased frequency shall be indicated on the Discharge Monitoring Report Form.

iv. The applicant shall retain for a minimum of 3 years all records of monitoring activities including all records of Calibration and maintenance of instrumentation and original strip chart regarding continuous monitoring instrumentation. The period of retention shall be extended during the course of any unresolved litigation regarding the discharge of pollutants by the applicant or when requested by Central or State Board or the court.

11. Reporting of Monitoring Results:-

Monitoring Information required by this Consent shall be summarized and reported by submitting a Discharge Monitoring report on line to the Board.

12. Limitation of discharge of oil Hazardous Substance in harmful quantities:-

The applicant shall not discharge oil or other hazardous substances in quantities defined as harmful in relevant regulations into natural water course. Nothing in this Consent shall be deemed to preclude the institution of any legal action nor relieve the applicant from any responsibilities, liabilities, or penalties to which the applicant is or may be subject to clauses.

13. Limitation of visible floating solids and foam:

During the period beginning date of issuance the applicant shall not discharge floating solids or visible foam.

14. Disposal of Collected Solid

All hazardous waste/sludge shall be disposed of as per the Authorization issued under HW Rules 2008. And/other Solids Sludges, dirt, silt or other pollutant separated from or resulting from treatment shall be disposed of in such a manner as to prevent any pollutant from such materials from entering any such water Any live fish, Shall fish or other animal collected or trapped as a result of intake water screening or treatment may be returned to eaters body habitat.

15. Provision for Electric Power Failure

The applicant shall assure to the consent issuing authority that the applicant has installed or provided for an alternative electric power source sufficient to operate all facilities utilized by the applicant to maintain compliance with the terms and conditions of the Consent.

16. Prohibition of By pass of Treatment Facilities

The diversion or by-pass of any discharge from facilities utilized by the applicant to maintain compliance with the terms and conditions of this Consent is prohibited except :

- i. where unavoidable to prevent loss of life or severe property damage, or
- ii. Where excessive storm drainage or run off would damage any facilities necessary for compliance with the terms and conditions of this Consent. The applicant shall immediately notify the consent issuing authorities in writing of each such diversion or by-pass in accordance with the procedure specified above for reporting non-compliance.

17. This consent to discharge shall expire on midnight of date of expiry. The occupier shall not discharge any effluent after the date of expiration.

Additional Water condition:- (if any) :-

Outward No: 22675, 17/11/2015

Consent Order

M.P. Pollution Control Board
E-5, Arera Colony
Paryavaran Parisar, Bhopal - 16 MP
Tele : 0755-2466191, Fax-0755-2463742

CONDITIONS PERTAINING TO AIR (PREVENTION & CONTROL OF POLLUTION) ACT 1981 :-

1. The applicant shall provide comprehensive air pollution control system consisting of control equipments as per the proposal submitted to the Board with reference to generation of emission and same shall be operated & maintained continuously so as to achieve the level of pollutants to the following standards:-

Name of section	Capacity	Stack height	Control equipment to be installed	P.M, SOX, NOX
D.G. Sets	2000kva	51	accoustic enclosure,	150,100,50

3. Ambient air quality at the boundary of the industry/unit premises shall be monitored and reported to the Board regularly on quarterly basis. The Ambient air quality norms are prescribed in MoEF gazette notification no. GSR/826(E), dated: 16/11/09. Some of the parameters are as follows:

- Particulate Matter (less than 10 micron) - 100 microgram/cubic meter (PM10 mg/m³ 24 hrs. basis)
- Particulate Matter (less than 2.5 micron) - 60 -" - (PM25 mg/m³ 24 hrs. basis)
- Sulphur Dioxide [SO₂] (24 hrs. Basis) - 80 -" -
- Nitrogen Oxides [NO_x] (24 hrs. Basis) - 80 -" -
- Carbon Monoxide [CO] (8 hrs. Basis) - 2000 -" -

4. The industry shall take adequate measures for control of noise level generated from industrial activities within the premises less than 75 dB(A) during day time and 70 dB(A) during night time.

5. The industry/ unit shall ensure all necessary arrangements for control of odour nuisance from the industrial activities or process within premises

6. All the internal roads shall be made pucca to control the fugitive emissions of particulate matter generated due to transportation and internal movements. Good housekeeping practices shall be adopted to avoid leakages, seepages, spillages etc.

7. Industry shall take effective steps for extensive tree plantation atleast in 03 rows of the local tree species with minimum spacing of 4X4-meter within or around the industry/unit premises for general improvement of environmental conditions and as stated in additional condition

Additional Air condition:- (if any)

GENERAL CONDITIONS:

2. The applicant shall allow the staff of Madhya Pradesh Pollution Control Board and/or their authorized representative, upon the representation of credentials:
 - a. To inspect raw material stock, manufacturing processes, reactors, premises etc to perform the functions of the Board.
 - b. To enter upon the applicant's premises where an effluent source is located or in which any records are required to be kept under the terms and conditions of this Consent.
 - c. To have access at reasonable times to any records required to be kept under the terms and conditions of this Consent.
 - d. To inspect at reasonable times any monitoring equipment or monitoring method required in this Consent: or,
 - e. To sample at reasonable times any discharge or pollutants.
3. This consent/authorisation is transferable, in case of change of ownership/management and addresses of new Owner/partner/Directors/proprietor should immediately apply for the same.
4. The issuance of this Consent does not convey any property rights in either real or personal property or any exclusive privileges, nor does it authorise any invasion of personal rights, nor any infringement of Central, State or local laws or regulations.
5. Industry shall install separate electric metering arrangement for running of pollution control devices and this arrangement shall be made in such fashion that any non functioning of pollution control devices shall immediately stop electric supply to the production and shall remain tripped till such time unless the pollution control device/devices are made functional. The record of electricity consumption for running of pollution control equipment shall be maintained and submitted to the Board every month.
6. This consent is granted in respect of Water pollution control Act 1974 or Air Pollution Control act, 1981 or Authorization under the provisions of HW (M, H & T) Rules 2008 only and does not relate to any other Department/Agencies. License required from other Department/Agencies have to be obtained by the unit separately and have to comply separately as per there Act / Rules.
7. Balance consent/authorisation fee, if any shall be recoverable by the Board even at a later date.
8. The applicant shall submit such information, forms and fees as required by the board not later than 180 day prior to the date of expiration of this consent/authorisation.
9. The industry/unit shall establish a separate environmental cell, headed by senior officer of the unit for reporting the environmental compliances. The industry/ Unit shall submit environmental statement for the previous year ending 31st March on or before 30th September every year to the Board.
10. Knowingly making any false statement for obtaining consent or compliance of consent conditions shall result in the imposition of criminal penalties as provided under the section 42(g) of the Water Act or section 38 (g) of the Air Act.
11. After notice and opportunity for the hearing, this consent may be modified, suspended or revoked by the Board in whole or in part during its term for cause including, but not limited to, the following :
 - (a) Violation of any terms and conditions of this Consent.
 - (b) Obtaining this Consent by misrepresentation or failure to disclose fully all relevant facts.
 - (c) A change in any condition that requires temporary or permanent reduction or elimination of the authorized discharge.
12. On violation of any of the above-mentioned conditions the consent granted will automatically be taken as canceled and necessary action will be initiated against the industry.

Additional condition: (17/11/2015)

1. Project Proponent shall adopt zero waste technology and zero liquid discharge condition.

Tal : Hatod, Distt : Indore

Sub: Grant of renewal of consent under section 25 of the Water (Prevention & Control of Pollution) Act, 1974 & under Section 21 of the Air (Prevention & Control of Pollution) Act, 1981 and Authorization under Hazardous and Other Wastes (Management and Transboundary Movement) Rules, 2016 - reg.

Ref: Your application receipt No. CCA-Renewal -1003163-13/01/2021-AWH.

With reference to your above application for renewal of consent and authorization has been considered under the aforesaid Acts and existing rules therein. The M. P. Pollution Control Board has agreed to grant consent up to 31/01/2024, & hazardous authorization up to 31/05/2027 subject to the fulfilment of the terms & conditions, enclosed with this letter.

SUBJECT TO THE FOLLOWING CONDITIONS:-

- Location: Kh.No. 196/2, 197/2 & Other relevant nos. Vill. Tigaria Badashah, Tal : Hatod, Distt : Indore,
- The capital Investment: Rs. 325.00 Crores
- Product and Production Capacity:

S.No.	Activity	Capacity / year
1.	Area Development & Township project	Built up Area: 34425.470 M ²
2.	Generation of Electricity by DG Set (For Captive Use Only)	1425.000 KVA

Note: -For any change in above Product and Production Capacity industry shall obtain fresh consent from the Board.

The validity of the consent is up to 31/01/2024 & hazardous authorization up to 31/05/2027 has to be renewed before expiry of consent validity. Online application through XGN with annual license fees in this regard shall be submitted to this office 6 months before expiry of the consent. Board reserves the right to amend/cancel / revoke the above condition in part or whole as and when required.

Enclosures:-

- * Conditions under Water Act
- * Conditions under Air Act
- * Conditions under Hazardous and Other Wastes (Management and Transboundary Movement) Rules, 2016
- * General conditions

Copy to:

- 1) Regional Officer, M.P. Pollution Control Board, Indore for information.
- 2) Collector, District Indore for information please.

Consent Order

M.P. Pollution Control Board
E-5, Arera Colony
Paryawaran Parisar, Bhopal - 16 (M.P.)
Tele : 0755-2466191, Fax-0755-2463742

CONDITIONS PERTAINING TO WATER (PREVENTION & CONTROL OF POLLUTION) ACT 1974:-

1. The and the daily quantity of sewage of the unit shall not exceed **91.500 KL/day**.
2. **Sewage Treatment:-** The applicant shall operate and maintain sewage treatment system to achieve following standards-

	pH	Between	5.5 - 9.0
Total Suspended Solids	Not exceed		100 mg/l.
BOD ₅ Days 27°C	Not exceed		30 mg/l.
COD	Not exceed		250 mg/l.
Oil and grease	Not exceed		10 mg/l.
Fecal Coliform (MPN/100ml)	Not exceed		1000

S.No.	Water Code (Qty. in KLPD - Kilo Ltr. per Day)	WC : 108.000	WWG : 91.500	Water Source
2	Cooling Water	3.500	0.000	Recycled
4	Domestic Purpose	104.500	91.500	Local Body

3. The effluent shall be treated up to prescribed Standards and reuse in the process, for cooling and for green belt development/gardening within premises. Hence zero discharge condition shall be practiced. In no case treated effluent shall be discharged outside of industry/unit premises.
4. Water meter preferably electromagnetic/ultrasonic type with digital flow recording facilities shall be properly maintained for category wise consumption of water for Industrial cooling/boiler feed, process & domestic purposes and data shall be submitted online through XGN monthly. The industry/unit shall also monitor the treated wastewater flow and report the same online through monthly.
5. Any change in production capacity, process, fuel used etc. and for any enhancement of the above prior permission of the Board shall be obtained. All authorized discharges shall be consistent with terms and conditions of this consent. Facility expansions, production increases or process modifications which result new or increased discharges of pollutants must be reported by submission of a fresh consent application for prior permission of the Board.
6. All treatment/control facilities/systems installed or used by the applicant shall be regularly maintained in good working order and operate effectively/efficiently to achieve compliance of the terms and conditions of this consent.
7. The specific effluent limitations and pollution control systems applicable to the discharge permitted herein are set forth as above conditions.
8. **Compilation of Monitoring data:-**
 - i. Samples and measurements taken to meet the monitoring requirements specified above shall be representative of the volume and nature of monitored discharge.
 - ii. Following promulgation of guidelines establishing test procedures for the analysis of pollutants, all sampling and analytical methods used to meet the monitoring requirements specified above shall conform to such guidelines unless otherwise specified sampling and analytical methods shall conform to the latest edition of the Indian Standard specifications and where it is not specified the guidelines as per standard methods for the examination of Water and Waste latest edition of the American Public Health Association, New York U.S.A. shall be used.
 - iii. The applicant shall take samples and measurement to meet the monthly requirements specified above and report online through XGN the same to the Board.

Consent Order

M.P. Pollution Control Board
E-5, Arera Colony
Paryawaran Parisar, Bhopal - 16 (M.P.)
Tele : 0755-2466191, Fax-0755-2463742

9. Recording of Monitoring activities and results:-

- i. The applicant shall make and maintain online records of all information resulting from monitoring activities by this Consent.
- ii. The applicant shall record for each measurement of samples taken pursuant to the requirements of this Consent as follows:
 - (i) The date, exact place and time of sampling
 - (ii) The dates on which analysis were performed
 - (iii) Who performed the analysis?
 - (iv) The analytical techniques or methods used
 - (v) The result of all required analysis
- iii. If the applicant monitors any Pollutant more frequently as is by this Consent he shall include the results of such monitoring in the calculation and reporting of values required in the discharge monitoring reports which may be prescribed by the Board. Such increased frequency shall be indicated on the Discharge Monitoring Report Form.
- iv. The applicant shall retain for a minimum of 3 years all records of monitoring activities including all records of Calibration and maintenance of instrumentation and original strip chart regarding continuous monitoring instrumentation. The period of retention shall be extended during the course of any unresolved litigation regarding the discharge of pollutants by the applicant or when requested by Central or State Board or the court.

10. Reporting of Monitoring Results:-

Monitoring Information required by this Consent shall be summarized and reported by submitting a Discharge Monitoring report on line to the Board.

11. Limitation of discharge of oil Hazardous Substance in harmful quantities:-

The applicant shall not discharge oil or other hazardous substances in quantities defined as harmful in relevant regulations into natural water course. Nothing in this Consent shall be deemed to preclude the institution of any legal action nor relieve the applicant from any responsibilities, liabilities, or penalties to which the applicant is or may be subject to clauses.

12. Limitation of visible floating solids and foam:-

During the period beginning date of issuance the applicant shall not discharge floating solids or visible foam.

13. Disposal of Collected Solid waste/sludge:-

All hazardous waste/sludge shall be disposed of as per the Authorization issued under Hazardous and Other Waste (Management and Transboundary Movement) Rules, 2016 and/or other solids sludge, dirt, silt or other pollutant separated from or resulting from treatment shall be disposed of in such a manner as to prevent any pollutant from such materials from entering any such water. Any live fish, Shell fish or other animal collected or trapped as a result of intake water screening or treatment may be returned to eaters body habitat.

14. Provision for Electric Power Failure:-

The applicant shall assure to the consent issuing authority that the applicant has installed or provided for an alternative electric power source sufficient to operate all facilities utilized by the applicant to maintain compliance with the terms and conditions of the Consent.

15. Prohibition of Bypass of technical facilities:-

The diversion or by-pass of any discharge from facilities utilized by the applicant to maintain compliance with the terms and conditions of this Consent is prohibited except:

- i. Where unavoidable to prevent loss of life or severe property damage, or
- ii. Where excessive storm drainage or run off would damage any facilities necessary for compliance with the terms and conditions of this Consent. The applicant shall immediately notify the consent issuing authorities in writing of each such diversion or by-pass in accordance with the procedure specified above for reporting non-compliance.

16. Industry shall submit the information online through XGN in reference to compliance of consent conditions.

Consent Order

M.P. Pollution Control Board
E-5, Arera Colony
Paryawaran Parisar, Bhopal - 16 (M.P.)
Tele : 0755-2466191, Fax-0755-2463742

CONDITIONS PERTAINING TO AIR (PREVENTION & CONTROL OF POLLUTION) ACT 1981:-

1. The applicant shall operate & maintain air pollution control facility continuously so as to achieve the level of pollutants.

Name of section	Capacity	Stack height(m)	Fuel	Consp-Unit	Control equipment to be installed	P.M, SO _x , NO _x (mg/Nm ³)
D.G. Sets	625 KVA	30	HSD	15 Litre/Hr	Acoustic Enclosure	As per MoEF&CC & CPCB notification
D.G. Sets	625 KVA	30	HSD	15 Litre/Hr	Acoustic Enclosure	
D.G. Sets	160 KVA	3	HSD	12 Litre/Hr	Acoustic Enclosure	

Note- Project proponent shall inform to the Board for any addition or removal of source of air/water pollution and control equipment.

2. Ambient air quality at the boundary of the industry/unit premises shall be monitored and reported to the Board regularly on quarterly basis. The Ambient air quality norms are prescribed in MoEF gazette notification no. GSR/826(E), dated: 16/11/09. Some of the parameters are as follows:

- Particulate Matter (less than 10 micron) - 100 µg/m³ microgram/cubic meter (PM₁₀ µg/m³ 24 hrs. basis)
- Particulate Matter (less than 2.5 micron) - 60 µg/m³ (PM_{2.5} µg/m³ 24 hrs. basis)
- Sulphur Dioxide [SO₂] (24 hrs. Basis) - 80 µg/m³
- Nitrogen Oxides [NO_x] (24 hrs. Basis) - 80 µg/m³
- Carbon Monoxide [CO] (8 hrs. Basis) - 2000 µg/m³

- The Project proponent shall take adequate measures for control of noise level generated from industrial activities within the premises less than 75 dB (A) during day time and 70 dB(A) during night time.
- Project proponent shall maintain each stack port hole with safe platform of 1 meter width with support & spiral ladder/ Stepped ladder with hand rail up to monitoring platform as per specifications given in part-III emission regulation of CPCB. In no case monkey ladder shall be allowed as stack monitoring facility.
- The Project proponent shall make and maintain the necessary arrangements for control of the fugitive emission from any source of emission/section/activities.
- All other fugitive emission sources such as leakages, seepages, spillages etc shall be ensured to be plugged or sealed or made airtight to avoid the public nuisance.
- The Project proponent shall ensure all necessary arrangements for control of odour nuisance from the industrial activities or process within premises.
- All the internal roads shall be maintain in good condition to control the fugitive emissions of particulate matter generated due to transportation and internal movements. Good housekeeping practices shall be adopted to avoid leakages, seepages, spillages etc.
- Project proponent shall take effective steps for extensive tree plantation within or around the industry/unit premises for general improvement of environmental conditions and as stated in additional condition.

CONDITIONS PERTAINING TO HAZARDOUS AND OTHER WASTES (MANAGEMENT AND TRANS-BOUNDARY MOVEMENT) RULES, 2016:-

FORM-2

[See rule 6(2)]

FORM FOR GRANT OR RENEWAL OF AUTHORISATION BY STATE POLLUTION CONTROL BOARD TO THE OCCUPIERS, RECYCLERS, REPROCESSORS, REUSERS, USER AND OPERATORS OF DISPOSAL FACILITIES

1. Number of authorisation and date of issue :
2. Reference of application (No. and date) :
3. The Occupier of **M/s. Infosys IT/ITES Campus**, is hereby granted an authorisation based on the enclosed signed inspection report for generation, collection, reception, storage, transport, reuse, recycling, recovery, pre-processing, co-processing, utilisation, treatment, disposal or any other use of hazardous or other wastes or both on the premises situated at **Kh. No. 196/2, 197/2 & Other relevant nos. Vill. Tigaria Badashah, Tal: Hatod, Distt : Indore.**

Details of Authorisation

Category of Hazardous Waste as per the Schedules I, II and III of these rules	Authorised mode of disposal or recycling or utilisation or co-processing, etc.	Quantity (ton/annum)
Used Or Spent Oil (5.1)	Through Authorized Recycler	2.000 MT

- (1) The authorization shall be valid for a period of **five years** i.e from dated **01/06/2022** to **31/05/2027**.
- (2) The authorization is subject to the following general and specific conditions:

A. General conditions of authorisation:

1. The authorised person shall comply with the provisions of the Environment (Protection) Act, 1986, and the rules made there under.
2. The authorisation or its renewal shall be produced for inspection at the request of an officer authorised by the State Pollution Control Board.
3. The person authorised shall not rent, lend, sell, transfer or otherwise transport the hazardous and other wastes except what is permitted through this authorisation.
4. Any unauthorised change in personnel, equipment or working conditions as mentioned in the application by the person authorised shall constitute a breach of his authorisation.
5. The person authorised shall implement Emergency Response Procedure (ERP) for which this authorisation is being granted considering all site specific possible scenarios such as spillages, leakages, fire etc. and their possible impacts and also carry out mock drill in this regard at regular interval of time;
6. The person authorised shall comply with the provisions outlined in the Central Pollution Control Board guidelines on "Implementing Liabilities for Environmental Damages due to Handling and Disposal of Hazardous Waste and Penalty"
7. It is the duty of the authorised person to take prior permission of the State Pollution Control Board to close down the facility.
8. The imported hazardous and other wastes shall be fully insured for transit as well as for any accidental occurrence and its clean-up operation.
9. The record of consumption and fate of the imported hazardous and other wastes shall be maintained.
10. The hazardous and other waste which gets generated during recycling or reuse or recovery or pre-processing or utilisation of imported hazardous or other wastes shall be treated and disposed of as per specific conditions of authorisation.
11. The importer or exporter shall bear the cost of import or export and mitigation of damages if any.
12. An application for the renewal of an authorisation shall be made as laid down under these Rules.
13. Any other conditions for compliance as per the Guidelines issued by the Ministry of Environment, Forest and Climate Change or Central Pollution Control Board from time to time.
14. Annual return shall be filed by June 30th for the period ensuring 31st March of the year.

Consent No:AWH-52938

Consent Order

M.P. Pollution Control Board
E-5, Arera Colony
Paryawaran Parisar, Bhopal - 16 (M.P.)
Tele : 0755-2466191, Fax-0755-2463742

B. Specific conditions:

1. The industry shall display the information on hazardous waste generated on notice board of size 6' x 4' (in Hindi & English) outside the unit main gate along with quantity and nature of hazardous chemicals being handled in the plant, including wastewater, air emission and hazardous wastes.
2. The Industry shall maintain the records of hazardous wastes as per the Form-3 of rule 6(5) and should online submit the annual return in Form No.4 as per the rule 6(5) to this office on or before 30th day of June of every year for the preceding period April to March.
3. In the event of any accident due to handling of hazardous wastes, the authorized person must inform immediately to the Regional Office & Head office of the board on Fax/telephone/emailit_mppeb@rediffmail.com about the incident and detail report should be sent in Form No. 10 as per rule -22 of Hazardous and Other Wastes (Management and Transboundary Movement) Rules, 2016.
4. Packing, Labeling & Transportation of Hazardous wastes:-
 - (i) The occupier or operator of the Treatment, Storage and Disposal Facility or recycler shall ensure that the hazardous waste are packaged and labeled, based on the composition in a manner suitable for safe handling, storage and transport as per the guidelines issued by the Central Pollution Control Board vide - October 2004 & conditions issues from time to time.
 - (ii) The labeling and packaging shall be easily visible and be able to withstand physical conditions and climate factors.
 - (iii) The transport of the hazardous wastes shall be in accordance with the provision of these rules and the rules made by the Central Govt. under the Motor Vehicle Act 1988 and other guidelines issued from time to time in this regard.
 - (iv) In case of transportation of hazardous wastes through a State other than the State of origin or destination, the occupier shall intimate the concerned State Pollution Control Board before he hands over the hazardous wastes to the transporter.
 - (v) The occupier shall provide the transporter with seven copies of the manifest as per the colour codes as per rule 19(1).
 - (vi) The occupier shall forward copy 1 (white) to the State Pollution Control Board and in case the hazardous wastes is likely to be transported through any transit State, the occupier shall prepare an additional copy each for intimation to such State and forward the same to the concerned SPCB before he hands over the hazardous wastes to the transporter.
 - (vii) No transporter shall accept hazardous wastes from an occupier for transport unless copies 3 to 7 of the manifest accompany it.
 - (viii) The transporter shall submit copies 3 to 7 of the manifest duly signed with date to the operator of the facility along with the waste consignment.
 - (ix) The industry shall ensure the transportation of the hazardous waste through the MPPCB authorized trucks/tank provided with the GPS system, Blue coloured with white strip painted as hazardous waste, driver with tenth passed etc as per CPCB guidelines issued in year 2005-06.
5. The occupiers of facilities may store the hazardous and other wastes for a period not exceeding ninety days and shall maintain a record of sale, transfer, storage, recycling, recovery, pre-processing, co-processing and utilisation of such wastes and make these records available for inspection.
6. The transport of the hazardous wastes shall be in accordance with the provision of these rules and the rules made by the Central Govt. under the Motor Vehicle Act 1988 and other guidelines issued from time to time in this regard.
7. If the industry comes in such a category where insurance under Public Liability Insurance Act, is necessary, the industry shall comply with provision and submit a copy of the policy to the Board.
8. The information regarding quantity of hazardous wastes generated and its analysis report should be sent to the Board online quarterly.
9. Hazardous Waste Storage Site & Danger signboard shall be provided with all fire safety & emergency safety devices at the storage site.
10. The authorized person should inform the name and address of the contact person responsible for hazardous waste management.
11. The industry shall make arrangements for store of hazardous waste/non hazardous solid waste in cover shed with pucca floor area.

Consent Order

M.P. Pollution Control Board
E-5, Arera Colony
Paryawaran Parisar, Bhopal - 16 (M.P.)
Tele : 0755-2466191, Fax-0755-2463742

GENERAL CONDITIONS:-

1. The non-hazardous solid waste arising in the industry/unit/unit premises sweeping, etc. be disposed off scientifically so as not to cause any nuisance/pollution. The applicant shall take necessary permission from civic authorities for disposal to dumping site. If required.

Non Hazardous Solid Waste:-

Type of waste	Quantity(M.T./Month)	Disposal
Municipal Solid waste	127.890	As per CPCB, MoEF&CC guidelines
E-waste	4.160	
Bio Medical waste	0.015	

2. The applicant shall allow the staff of Madhya Pradesh Pollution Control Board and/or their authorized representative, upon the representation of credentials:
 - a. To inspect raw material stock, manufacturing processes, reactors, premises etc to perform the functions of the Board.
 - b. To enter upon the applicant's premises where an effluent source is located or in which any records are required to be kept under the terms and conditions of this Consent.
 - c. To have access at reasonable times to any records required to be kept under the terms and conditions of this Consent.
 - d. To inspect at reasonable times any monitoring equipment or monitoring method required in this Consent: or,
 - e. To sample at reasonable times any discharge or pollutants.
3. This consent/authorization is transferable, in case of change of ownership/management and addresses of new Owner/partner/Directors/proprietor should immediately apply for the same.
4. The issuance of this Consent does not convey any property rights in either real or personal property or any exclusive privileges, nor does it authorize any invasion of personal rights, nor any infringement of Central, State or local laws or regulations.
5. Industry shall maintain separate electric metering arrangement for running of pollution control devices and this arrangement shall be made in such fashion that any non-functioning of pollution control devices shall immediately stop electric supply to the production and shall remain tripped till such time unless the pollution control device/devices are made functional. The record of electricity consumption for running of pollution control equipment shall be maintained and submitted to the Board every month.
6. This consent is granted in respect of Water pollution control Act 1974 or Air Pollution Control act, 1981 or Authorization under the provisions of Hazardous and Other Waste (Management and Transboundary movement) Rules, 2016, only and does not relate to any other Department/Agencies; License required from other Department/Agencies have to be obtained by the unit separately and have to comply separately as per there Act / Rules.
7. Balance consent/authorization fee, if any shall be recoverable by the Board even at a later date.
8. The applicant shall submit such information, forms and fees as required by the board not later than 180 day prior to the date of expiration of this consent/authorization.
9. Knowingly making any false statement for obtaining consent or compliance of consent conditions shall result in the imposition of criminal penalties as provided under the section 42(g) of the Water Act or section 38 (g) of the Air Act.
10. After notice and opportunity for the hearing, this consent may be modified, suspended or revoked by the Board in whole or in part during its term for cause including, but not limited to the following:-
 - (a) Violation of any terms and conditions of this Consent.
 - (b) Obtaining this Consent by misrepresentation or failure to disclose fully all relevant facts.
 - (c) A change in any condition that requires temporary or permanent reduction or elimination of the authorized discharge.
11. On violation of any mentioned conditions the consent granted will automatically be taken as canceled and necessary action will be initiated against the industry.

Consent Order

M.P. Pollution Control Board
E-5, Arera Colony
Paryawaran Parisar, Bhopal - 16 (M.P.)
Tele : 0755-2466191, Fax-0755-2463742

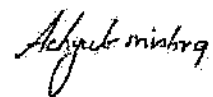

Additional Conditions:-

1. The treated waste shall be treated up to prescribed standards and shall be reused in the flushing through dual plumbing and green belt development /gardening within premises to ensure zero discharge condition.
2. The Environmental cell of project shall ensure the compliance the provisions of Plastic Waste Management Rules,2016, E-Waste (management) Rules, 2016, Bio-Medical Waste Management Rules,2016, Solid Waste Management Rules,2016, Construction and Demolition Management Rules, 2016, Battery (Management and Handling) Rules 2001 as amended and Hazardous and other wastes (Management & Transboundary Movement) Rules, 2016.
3. The area earmarked for the parking shall be used for parking only. No other activity shall be permitted in the area.
4. The Project Proponent shall develop Rain water harvesting for recharge of ground water through technically qualified consultant with proper approval from concerned department.
5. The project proponent shall explore the installation of Bio-composting plant in the premises for disposal of bio-degradable waste generated in the project.
6. Project proponent shall ensure that in planning of projects the width of roads and parking space in such a manner to ensure free and smooth flow of traffic and separate adequate parking for control of air pollution.
7. The Project Proponent shall ensure regular arrangement with local body for disposal of municipal solid waste.
8. The Project Proponent shall strictly comply with CPCB/SPCB/MoEF & CC/Hon'ble NGT direction/guidelines/norms time to time.
9. The Project Proponent shall provide the bins for collection of E-waste (Phones, TV, CD, Input output devices) and household hazardous waste (dry cell batteries, cans of pesticides/insecticides, CFLs etc.) and the waste shall be given to the authorized agency /municipal corporation.
10. Representative of resident welfare society / association shall be trained for the operation of STP and various waste management.
11. The burning of road sweeping shall be strictly prohibited in the project area and disposal of the same shall be through composting or Municipal Corporation only.
12. Littering of plastic and other waste in the project shall be avoided.
13. This consent is granted in respect of Water pollution control Act, 1974 & Air Pollution Control act, 1981 or Authorization under the provisions of The Hazardous and Other Wastes (Management and Transboundary Movement) Rules, 2016 only and does not relate to any other Department/Agencies. License/NOC required from other Department/Agencies have to be obtained by the unit separately and have to comply separately as per their Act / Rules.

Consent and authorization as required under the Water (Prevention & Control of Pollution) Act, 1974, The Air (Prevention & Control of Pollution) Act, 1981 and the Authorization under Hazardous and Other Waste (Management and Transboundary Movement) Rules, 2016, is granted to your industry subject to fulfillment of all the conditions mentioned above. **For renewal purpose you shall have to make an application to this Board through XGN at least Six months before the date of expiry of this consent and authorization.** The applicant without valid consent (for operation) of the Board shall not bring in to use any outlet for the discharge of effluent and gaseous emission.
